## Don't Dig Blind - Call 811 Before You Dig

Homeowners often make risky calculations regarding whether or not they should get their utility lines marked before they begin any digging projects - sometimes with very serious and costly results!

Every digging project in the state of Indiana requires a call to the IUPPS Call Before You Dig Center at **811**. This simple call will get all the utility lines on your property marked - what you don't know can hurt you!

Here is the simple process the operator will help you with when you call **811**:

1. Tell the operator the township in which you live.
2. Get your ticket number from the operator.
3. Wait the required 48 hours. This gives utility companies like Citizens Gas time to find and mark the lines.
4. Use care and hand dig within 2 feet of the buried utility line.
5. For more information on call before you dig rules, please go to [www.iupps.org](http://www.iupps.org).
